

TABLE 4

National and International Essay Awards

***Prizes listed for those years for which complete records are available (i.e., 1977 - Present).**

1978 3rd Prize, Laboratory Research, AUA

Kokotas, N.: Motor innervation of the urinary tract studied by retrograde axonal transport of protein.

1983 1st Prize, Laboratory Research, AUA

Lue, T. F.: Hemodynamics of erection and clinical implications.

1983 2nd Prize, Oinical Research, *AVA*

Kogan, B. A.: " 99mTc-DMSA scan for renal imaging in children.

1985 3rd Prize, Laboratory Research, AUA

Bretan, P. N. Jr.: Assessment of renal viability by phosphorus-31 magnetic resonance spectroscopy.

1986 1st prize, Jack Lapides Essay Contest

Juenemann, K.-P.: Clinical significance of sacral and pudendal nerve anatomy.

1986 2nd Prize, Jean-Francois Ginestie Essay Contest

Lue, T. F.: Mechanism of penile erection.

1986 2nd Prize, Oinical Research, AUA

Bretan, P. N. Jr.: Assessment of clinical renal preservation by phosphorus-31 magnetic resonanc spectroscopy.

1987 Aiken Prize

Lue, T. F.: The mechanism of penile erection.

1987 1st prize, Jack Lapides Essay Contest

Stoller, M. L.: The efficacy of acupuncture in reversing the unstable bladder in pig-tailed monkeys~

1988 1st Prize, Jack Lapidès Essay Contest

Kogan, B. A.: Ontogeny of lower urinary tract function: Studies of neural control and pharmacologic responses of the fetal bladder.

1989 1st Prize (shared), Jack Lapidès Essay Contest

Bosch, R. J. L. H.: Synchronized electrical stimulation of the sympathetic and parasympathetic innervation of the bladder: Facilitation of the initiation of micturition in the dog.

1989 1st Prize, Qinical Research, AUA

Narayan, P.: Transrectal MR spectroscopy: A noninvasive technique using cellular metabolite ratios to differentiate normal human prostates from prostate cancer and benign hyperplasia.

1989 Honorable Mention Clinical Research, AUA

Carroll, P. R.: Functional characteristics of the continent ileocecal urinary reservoir: Mechanisms of urinary continence.

1992 1st Prize, Jack Lapidès Essay Contest Hohenfellner, M.: Reinnervation of the rat bladder with a somatic nerve and a striated muscle flap.

1992 2nd Prize, Jack Lapidès Essay Contest

Trigo-Rocha, F.: The role of cyclic AMP, cyclic GMP, endothelium and nonadrenergic noncholinergic neurotransmission in canine penile erection

1992 Urodynamics Society (Basic Science)

Trigo-Rocha, F.: Intracellular mechanism of penile erection in monkeys.

1992 Jean-Paul Ginestie Prize

Hsu, G.-L.: Three-dimensional structure of the human tunica albuginea: Anatomical and ultrastructural levels

1993 1st Prize, Canadian Urologic Association Essay Contest

Brock, G.: Peyronie's disease: A result of superoxide injury

1993 Urodynamics Society (Basic Science)

von Heyden, B.: Male urethral responses to electrostimulation and neuromuscular blockade: Correlation of regional differences with sphincteric and ejaculatory function

1994 1st Prize, Jack Lapidès Essay Contest

Carrier, S.: Regeneration of nitric oxide synthase-containing nerves after cavernous nerve neurotomy

1994 2nd Prize, Jack Lapidès Essay Contest

Mevorach, R.: Nitric oxide mediates lower urinary tract function.

1995 1st Prize, Jack Lapidès Essay Contest

Baba, K.: Effect of testosterone on the number of NADPH diaphorase staining nerve fibers in the rat corpus cavernosum and dorsal nerve.

1996 2nd Prize (shared), Jack Lapidès Essay Contest

Probst, M.: Neurostimulation for bladder evacuation: Is sacral rootlet stimulation a substitute for microstimulation?

2006 AUA Ambrose/Reed Socioeconomics Essay Prize;

Maxwell V. Meng

2006 Second Place: AUA Miley B. Wesson Physician's Essay Contest

Maxwell V. Meng

2010 1st Prize: AUA/Olympus Physician's Essay Contest

Maurice M. Garcia: A Novel non-invasive, motility-independent sperm sorting method to assay and retrieve viable sperm for use with intracytoplasmic sperm injection (ICSI)
