

## **Disorders of Sexual Differentiation (DSD) Clinic**

At UCSF we have a unique multidisciplinary clinic that provides care to families of children with ambiguous genitalia. Our experts include urologists, endocrinologists, reproductive endocrinologists, geneticists, child psychologists, a mental health nurse practitioner, nurses and social work professionals. The team meets with families to discuss diagnosis, management, goals and questions, and concerns surrounding genital surgery. The entire DSD team meets on the third Tuesday of every month to collaborate with individual families to provide a management plan for each child's medical and psychological needs. Angelique Champeau, CPNP is the clinic coordinator. Please contact us 415 353-2083 to schedule an appointment.

### **DSD Support Groups:**

Support groups, such as the Cares Foundation (<http://www.caresfoundation.org>) also provide help and support to young people, adults and families who are affected by CAH.

**See the next page for contact information.**
