

## Urology Clinical and Translational Sciences (UCATS)

### UCSF UCATS Stats Group 2015

#### Who we are:

UCATS Stats Group consists of 3 experienced outcomes researchers

- [Janet Cowan, MA](#) is a research specialist and long-time data manager and analyst who oversees UCATS Stats and has coauthored 50 papers in the UCSF Department of Urology since 2003.
- [Niloufar Ameli, MS](#) is a principal statistician and SAS programmer with degrees in mathematics and statistics and extensive experience in data management, analysis, and publications.
- [Shoujun Zhao, MD, PhD](#) has a doctorate in Epidemiology & Biostatistics and is an expert statistician and programmer who has worked with research faculty throughout UCSF.

#### What we do:

- Meet with faculty and trainee investigators to discuss clinical questions and shape proposals
- Advise about appropriate data sources and develop statistical analysis plans
- Analyze data and present results in series of summary reports
- Coauthor papers for peer-reviewed journals

#### Where we are located:

UCSF Urologic Oncology Outcomes Research  
Campus Box 1695  
550 16th Street, 6th Floor  
San Francisco, CA 94143

#### Who we support:

- UCATS Stats Group currently supports urology faculty and trainees
